

# Hit and Run

You're walking down the road my friend  
It's dark you cannot see  
I'm standing just around a bend  
Your life belongs to me  
I got a knife right in my hand  
Sharp, highest polished steel  
Your lifetime is running out  
Can't stop the spinning wheel

Hit and run  
I was never seen  
If I had just not been

Now I'm coming after you  
Last chance to speak last prayer  
Too late I hurl my hand to you  
You'll not be my betrayer  
I spill your blood right all around  
Your rest is for the rats  
Feel my blade it rips you down  
Ice cold steel stops your heart beat

Hit and run  
I was never seen  
If I had just not been
