Welcome to my world, let me be the one,  
Your sex god, never let you go, let you feel greatest pleasure  
More sex I need, never get enough,  
I want you, I cannot suppress the daily lust to fuck you  
I'm your medicine, I'm your hormone shock,  
Hormone shock, horny ev`ry day, my gun is always loaded  
I am not ashamed to do it like the dogs,

Give the dog a bone: Take off all your clothes,  
I'm your dog, show me what you got, bring your butt in position  
Forget all around, fire in your eyes,  
I'm in you, I will satisfy, all of your sexual needs,  
You are my goddess, I will hear you scream,  
Scream it out, smell of burning flesh, exploding feeling is near  
My machine works best, our parts fit good,  
Finest fuels, never ending game, I won't let you go away

Have to be in you, many ways to do, down on you,  
Best fucking machine, cut your sweet cake with my knife  
Change of position, show me that you like doggy style,
