

Nail me to the Cross

Murder, death and pain, under shade of the cross
Burned on thousand stakes, witches or just women
Bloodlines, burning books, crimes on humanity
I won't bleed for you, religion's not for me

Nothing is sacred, I burn your holy book
Sinner 'til the end, I am no holy man

Nail me to the cross
But take your strongest nails
I will never be like you

Worldwide praying clan, collective delusion
Paedophile pastors proclaim the holy word
Vatican city, exempt from punishment
Can't believe in you, your church is not for me

Nothing is sacred, I burn your holy book
Sinner 'til the end, I am no holy man

Nail me to the cross
But take your strongest nails
I will never be like you

Brainwash the masses, a cross branded on you
They affect your life, from birth 'til final breath
World supremacy, greed for authority
I won't bleed for you, your church is not for me

Nothing is sacred, I burn your holy book
Sinner 'til the end, I am no holy man

Nail me to the cross
But take your strongest nails
I will never be like you

I won't bleed for you
