

## Rabies

Been frost-bitten, devil ridden  
Torture I know, stood last in row  
A careless touch, barely too much  
Lightning's strikin' thunder's rollin'  
Out of its mouth...  
It feels like a punch in the face

And then the hellhound bites  
It's puking hellfire, just like a vampire,  
Injecting disease burns me on a pyre  
I've got rabies  
Fear my bite  
I've got rabies  
And you are next in line

Blood and spit mates, mutual fates  
Common disease, sets me at ease  
Insanity gazing at me  
Teeth are shinin' bastard's whinin'  
Into my ear, so I can hear  
Its inner fear

And then the hellhound bites  
It's puking hellfire, just like a vampire,  
Injecting disease burns me like a pyre  
I've got rabies  
Fear my bite  
I've got rabies  
And you are next in line

Stripped to the bones, mind crushin' groans  
A piercing sound that is hell bound  
Makes me confess, licks me to death  
Command my soul to exit the hole

Eternity is following me  
God bless my ass, an unholy mass  
Selling the drama it's getting harder  
I've tamed the shrew cuz one can't do  
Without the other, why even bother,  
With splitting up

And then the hellhound bites  
It's puking hellfire, just like a vampire,  
Injecting disease burns me like a pyre  
I've got rabies  
Fear my bite  
I've got rabies  
And you are next in line
