

Return of The Aggressor

Bombers rule the sky tonight,
Sounds of flying war machines
Death comes from above this night.
Machinegun fire, sends you to hell.

Terminator, devastator, life predator, dictator
Annihilator, eliminator, return of the aggressor
Right now the time to die is here
Terminator, devastator, life predator, dictator
Annihilator, eliminator, return of the aggressor
This time I'll make all live an end

Dictator brings the total war.
Back to battle, I will win.
I am the new world order.
Merciless war, time stands still

Terminator, devastator, life predator, dictator
Annihilator, eliminator, return of the aggressor
Right now the time to die is here
Terminator, devastator, life predator, dictator
Annihilator, eliminator, return of the aggressor
This time I'll make all live an end

Terminator – Eliminator
Annihilator – Devastator
Life predator – Dictator

Blood red skies and blackened earth.
The shade of death is all around.
Erase the ground, celebrate the war
Air missile rain, brings the end.

Terminator, devastator, life predator, dictator
Annihilator, eliminator, return of the aggressor
Right now the time to die is here
Terminator, devastator, life predator, dictator
Annihilator, eliminator, return of the aggressor
This time I'll make all live an end
